

# Jonathan Alden Lane

## Full-Stack Developer

Los Angeles | 805-206-7028 | [jlanewebdev@gmail.com](mailto:jlanewebdev@gmail.com)

<https://www.linkedin.com/in/jonathanalane/> | <https://github.com/Thornathan>

I've been a Developer for two years now and I have a background of working in fast-paced team oriented environments. Adept in MERN Full-Stack, I have honed my abilities to be able to deliver well thought out solutions with precision and confidence.

---

### Skills

HTML | CSS | Javascript | Mern | Express | Node.Js | MongoDB | Mongoose | Heroku | React | Python | Django | Postman | Bootstrap

---

### Projects

#### Checkers

This is a 2 player checkers game. It follows all the basic rules of checkers and ends when a player has no more pieces.

*Technologies used: HTML | CSS | Javascript*

#### Blog Site

This is a Gaming Themed Blog Site that allows for a User to Login and be able to post Blogs onto the site as well as being able to comment on others posts once they have been able to Log In.

*Technologies used: HTML | CSS | Javascript | Express | Node.Js | MongoDB | Heroku | Google OAuth API*

#### Game Library

This is a Full CRUD site dedicated to showing Gaming enthusiasts the most anticipated upcoming games as well as showing some of the top rated games, upcoming games, and current top games with details about each game.

*Technologies used: HTML | CSS | Javascript | Django | Python | Heroku*

#### Pokemon Creation App

Full CRUD App that allows users to sign into their profile and use a create form page to create pokemon with a built in pokedex for the first 151 pokemon and also a link to a pokemon fusion site to get ideas for pokemon creations.

*Technologies used: HTML | CSS | Javascript | React | Node.js | Express | Mongoose | MongoDB | pokeapi.co | Heroku*

---

### Experience

#### Marketing Director

##### Virtuity Financial Partners

Sept 2017 - Dec 2019

As a Marketing Director, I was tasked with training new associates and helping develop and open a financial firm that had partnered with the NFL Alumni to be able to offer high quality financial education and financial strategies.

- Trained new Associates by doing Field Training Appointments to help clients build a financial portfolio.
- Helped build out the San Diego office and develop the team that would manage the client's portfolios and training.
- Built out a portfolio of clients through networking and marketing on social media and in-person networking events.

---

### Education

#### General Assembly

Software Engineering, Research  
2020

#### California State University of Northridge

Computer Science Associate's Degree  
2016
